**FLOOD CONTROL AND WATER CONSERVATION DISTRICT BOARD SUBMITTAL
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

SUBJECT: Notice of Completion
San Sevaine Channel Invert Repair, Phase 1
Project No. 1-0-0050

SUBMITTAL DATE: February 27, 2007

Page 2

BACKGROUND:

The Board approved a contract with Bonadiman-McCain, Inc., in the amount of \$1,019,100.00 as Agenda Item Number 11.1 on October 31, 2006. The District does not anticipate any claims for additional compensation from the Contractor, therefore, the total project construction cost is not expected to exceed the original contract amount.

Final inspection of the above referenced project was made, and the project was found to be complete according to plans and specifications. A brief project description and location map are attached.

To be recorded with County Recorder within 10 days after completion. No recording fee.
When recorded return to: CLERK OF THE BOARD Stop No. 1010

Title: **Chairman, Board of Supervisors**

STATE OF CALIFORNIA)§
COUNTY OF RIVERSIDE)

I am the Chairman of the governing board of the Riverside County Flood Control and Water Conservation District the public entity which executed the foregoing notice and on whose behalf I make this verification; I have read said notice, know its contents, and the same is true. I certify under penalty of perjury that the foregoing is true and correct.

Executed at Riverside, California on _____ (Date)

SAN SEVAINE CHANNEL INVERT REPAIR

PHASE 1

PROJECT NO. 1-0-0050

The San Sevaire Channel is an existing concrete channel that extends from the County Line at Philadelphia Street at the upstream limit, to the Santa Ana River at the downstream limit. During the 2004 to 2005 rainy season the channel conveyed a considerable amount of fairly large rocks from facilities in San Bernardino County. Abrasion to the channel bottom and the piers at Limonite Avenue, Galena Street, Bellegrave Avenue and a couple near San Sevaire Way occurred due to the high velocity and sediment loading in the channel. The District will repair these damaged areas in phases. Phase 1 of the contract is to repair the damaged piers and the channel invert from Philadelphia Street to the 60 Freeway and also from Limonite Avenue to the Santa Ana River.
