SUBJECT: General Plan Amendment No. 885

MESSAGE-----

Dear Mr. Wilson,

As the long time property owners of 48005 Painted Canyon Road in Cahuilla Hills. We strongly recommend that the Board of Supervisors reject the proposed Riverside County Plan Amendment No. 885 / Change of Zone No. 7612. We strongly oppose this proposal.

As well, we urge you to oppose the Amendment and be a voice for the property owners and residents of Cahuilla Hills.

Thank you for your consideration of our position on this issue.

Regards,

Craig Reisfield & Ginette Reisfield

MESSAGE----

Supervisor Wilson!

Good Morning.

Next week your Board will be hearing and voting on the issue of rezoning the area of the Cahuilla Hills.

I am opposed to this rezoning and would like to ask you for maintaining the current zoning as long as a safe secondary access is openend up for that area.

With respect and kind regards, Peter

SUBJECT: Cahuilla Hills Zoning Change

MESSAGE: We in Cahuilla Hills are very upset at hearing that the Council is overturning the Planning Commissions decision to keep Cahuilla Hills Zoning at one dwelling Per Acre. There is something not right going on. I understand that a man named Biefeld is a big contributor to your campaign and certainly hope that there is no special interest, corruption going on. People's retirement is at stake and I personally want to divide my property so each of my children and grandchildren will have an acre. We are the FOURTH generation on this land and will greatly appreciate your doing the right thing for all of the residents here. Thank you, Ann Cady Cooper

SUBJECT: General Plan Ammendment #885/change of zone #7612

MESSAGE: We are residents in the area listed above and have lived in the desert since 1965. We have met many times at Rotary functions and I built and operated the Elephant Car Washes. We support the passing of the "subject" above as does a majority of the residents and property owners in the Cahuilla Hills. The second access to the area is being approved and we encourage you to either approve the measures as written, with the condition that the second emergency entrance be recorded, or delay the vote until it is recorded.

SUBJECT: GPS 885 & Change of Zone 7612

MESSAGE----

Please leave Cahuilla Hills (section 36) as is with 1 acre parcel min. If the emergency access is the only issue then please just put a condition that no land splits (parcel maps or subdivisions) shall be allowed UNTIL an emergency access for those parcels north of the Paisano Road crossing is in place. This will prevent any of us from having to go through the long GPA process. If Secondary Access is an issue it should have been addressed when the Palm Valley Channel was construction not 20 some years later. We were told" you get one bridge and you can decide where you want it."
