

**SUBMITTAL TO THE BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

824A

FROM: Transportation and Land Management Agency

SUBMITTAL DATE:
January 27, 2015

SUBJECT: Adopt Resolution No. 2015-025 Revising the Special Flood Hazard Areas in the Public Flood Hazard Determination Interactive Map Pursuant to Ordinance No. 458; CEQA Finding of Exemption; District 3

RECOMMENDED MOTION: That the Board of Supervisors:

1. Finds that the revisions to the Special Flood Hazard Areas in the Public Flood Hazard Determination Interactive Map are exempt from the California Environmental Quality Act pursuant to CEQA Guidelines Section 15061(b)(3) and 15305; and
2. Adopt Resolution No. 2015-025 Revising the Special Flood Hazard Areas in the Public Flood Hazard Determination Interactive Map as shown on Attached Exhibit "A"; and
3. Direct the Floodplain Administrator to amend the Special Flood Hazard Areas in the Public Flood Hazard Determination Interactive Map within ten days after adoption of this resolution; and
4. Direct the Clerk of the Board to file the attached Notice of Exemption with the County Clerk within five days after adoption of the revisions to the Special Flood Hazard Areas.

BACKGROUND:

Summary (continued)

Ordinance No. 458 regulates the administration of Special Flood Hazard areas within unincorporated Riverside County. Ordinance No. 458, Section 5 provides the lists of the special flood hazard areas shown on the Public Flood Hazard Determination Interactive Map that are regulated by the County. Special flood hazard areas within a portion of Warm Springs Creek (listed in Ord No. 458, Section 5(b)(3)) and a portion of the Awareness Map floodplains (listed in Ord No. 458 Section 5(d)) are recommended to be revised as shown on Exhibit "A".

The reasons for the floodplain map revision are as follows:

- Warm Springs Creek passes through Specific Plan 310. The Board of Supervisors adopted conditions of approval on December 14, 2004 that required the construction of a channel and storm drain system to protect the proposed development from flooding and mitigate its impacts on downstream properties. The conditions placed on SP310 require drainage improvements that exceed those required by Ordinance No. 458.
- The Awareness Map of Warm Springs Creek used topographic mapping from 1979 that does not include Diamond Valley Reservoir. The base assumptions for the watershed delineations are incorrect. The resulting special flood hazard areas simply do not exist to the extent shown on the current maps.

Impact on Residents and Businesses

For the parcels within Specific Plan 310, there will be no change since the Conditions of Approval require the construction of a channel and storm drain system to protect the proposed development from flooding and mitigate its impacts on downstream properties. For parcels east of SP 310, removing the special flood hazard area will show a more accurate representation and their flooding risk and allow residents and businesses to construct improvements without being regulated by Ordinance No. 458.

3 RESOLUTION NO. 2015-025

4 A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE COUNTY OF RIVERSIDE
5 REVISING SPECIAL FLOOD HAZARD AREAS IN THE PUBLIC FLOOD HAZARD
6 DETERMINATION INTERACTIVE MAP PURSUANT TO ORDINANCE NO. 458

7 WHEREAS, Ordinance No. 458 regulates Special Flood Hazard Areas and implements the
8 National Flood Insurance Program within unincorporated Riverside County; and

9 WHEREAS, the Public Flood Hazard Determination Interactive Map found at <http://rcflood.org>
10 shows the Special Flood Hazard Areas; and

11 WHEREAS, Specific Plan 310 ("SP310"), Domenigoni-Barton Properties, is located in the
12 unincorporated County of Riverside, near Diamond Valley Lake, on both sides of Highway 79, bounded
13 by Holland road on the north, and Keller Road on the south, (See attached Exhibit "A"); and

14 WHEREAS, AEI-CASC Companies prepared a special flood study as part of Specific Plan 310
15 dated December 2004, to address flood control improvements necessary for the property's development,
16 and that flood study is on file at the Riverside County Flood Control and Water Conservation District
17 ("District"); and

18 WHEREAS, using the SP 310 special flood/drainage study, District recommended and the Board
19 of Supervisors for the County of Riverside adopted conditions of approval for addressing flood hazards
20 through the site when approving SP310; and

21 WHEREAS, Domenigoni-Barton Properties Specific Plan 310 Environmental Impact Report 421
22 was certified by the Board on December 18, 2001 with a supplement report certified on December 14,
23 2004; and

24 WHEREAS, a Special Flood Hazard Area is identified and located on SP 310 property also shown
25 on Exhibit "A"; and

26 WHEREAS, based upon the Engineer's Statement, attached as Exhibit "B", providing details
27 supporting the floodplain revision, the Floodplain Administrator finds the SP 310 conditions of approval
28 are still appropriate; that the special flood hazard areas shown in red through SP 310 may be deleted from

1 the Interactive Map; and that the Special Flood Hazard Area shown in red on Exhibit "A" is in error and
2 recommends such area should be deleted from the Public Flood Hazard Determination Interactive Map;

3 NOW, THEREFORE, BE IT RESOLVED, DETERMINED AND ORDERED, by the Board of
4 Supervisors of the County of Riverside, State of California, in regular session assembled January 27, 2015
5 based upon the evidence and testimony presented on the matter, both written and oral, that:

- 6 1. The proposed revisions to the Special Flood Hazard Areas in the Public Flood Hazard
7 Determination Interactive Map are exempt from the California Environmental Quality Act
8 pursuant to CEQA Guidelines Section 15061(b)(3) and 15305 as it can be seen with
9 certainty that there is no possibility that the activity in question may have a significant
10 effect on the environment.
- 11 2. Notice of the public hearing was given at least 10 days prior to date of this public hearing,
12 was properly made by publication and mailed to affected property owners, and all persons
13 desiring to be heard on the matter were given the opportunity to appear and present
14 testimony, both oral and written.
- 15 3. Revising the Special Flood Hazard Areas in the Public Flood Hazard Determination
16 Interactive Map is hereby authorized and the floodplain limits shown in red on attached
17 Exhibit "A" shall be deleted.
- 18 4. The Floodplain Administrator is directed to make, or cause to be made, the changes to the
19 Public Flood Hazard Determination Interactive Map within ten days of the adoption of
20 Resolution No. 2015-XX and is authorized to direct that the Riverside County Flood
21 Control and Water Conservation District files be updated in accordance with this
22 resolution.

23 BE IT FURTHER RESOLVED AND ORDERED that the Clerk of the Board is directed to file the
24 Notice of Exemption with the County Clerk within five (5) days after adoption of amending the Special
25 Flood Hazard Areas by authorizing the revisions to the Public Flood Hazard Determination Interactive
26 Map.

ENGINEER'S STATEMENT

DETAILS IN SUPPORT OF REVISING THE SPECIAL FLOOD HAZARD AREA IN THE PUBLIC FLOOD HAZARD DETERMINATION INTERACTIVE MAP PURSUANT TO ORDINANCE NO. 458

Specific Plan 310, Domenigoni-Barton Properties, is located south of Winchester and west of Diamond Valley Lake (see attached Exhibit A). The Board of Supervisors adopted conditions of approval on December 14, 2004 that required the construction of a channel and storm drain system to protect the proposed development from flooding and mitigate its impacts on downstream properties.

Warm Springs Creek passes through SP 310. Warm Springs Creek is a major tributary to Murrieta Creek, with its headwaters in the Domenigoni Valley. Warm Springs Creek and major tributaries were studied by the U.S. Army Corp of Engineers in February 2003 from Diamond Valley Reservoir downstream to near Calle de Amor. The detailed study used topographic mapping dated April 2001.

Separately, the California Department of Water Resources (DWR) prepared flood hazard awareness maps in 2003 using approximate methods that included additional floodplain mapping along Warm Springs Creek and other unnamed tributaries that pass through SP310. DWR used topographic mapping from the USGS Quad maps which were most recently updated in 1979 for this area and did not include Diamond Valley Reservoir which finished construction in December 1999.

Ordinance 458 regulates Special Flood Hazard Areas and implements the National Flood Insurance Program. The special flood hazard areas determined by the Corps study and the Awareness Maps were incorporated into Ordinance 458 and are regulated by the County of Riverside.

It is my judgment that special flood hazard areas presently shown on the Exhibit should be removed for two reasons.

1. The conditions placed on SP310 require drainage improvements greater than those required by Ordinance No. 458.
2. The base assumptions for the watershed delineations are incorrect. The topographic mapping did not incorporate Diamond Valley Reservoir and as a consequence include much more tributary drainage area to the watercourses than is physically possible. The resulting special flood hazard areas simply do not exist to the extent shown on the current maps.

Therefore, the special flood Hazard Areas along Warm Springs Creek and the unnamed tributary shown in red on the attached exhibit shall be revised and removed from the Public Flood Hazard Determination Interactive Map.

LIMITS OF FLOOD HAZARD MAP CHANGE

The attached exhibit, SP310 Floodplain Removal shows the limits of the current floodplain and the portions to be removed. The unnamed tributary floodplain shown on the southern portion of the exhibit should be deleted upstream (east) of Washington Road deleted. The Warm Springs Creek floodplain shown on the northern portion of the exhibit should be deleted upstream (north) of Wickerd Road removed.

Deborah de Chambeau, P.E.

Certification Form and
Proof of Notice Sent to Property Owners

I, Becky Patterson, Executive Assistant, certify that on January 8, 2015, the attached property owners list was prepared by Deborah de Chambeau for the purpose of providing notice of the public hearing for the proposed revisions to the special flood hazard area in the Public Flood Hazard Determination Interactive Map. Said list is a complete and true compilation of the owners of the properties subject to or affected by the proposed revisions to the special flood hazard area, based upon the latest equalized assessment rolls.

I further certify that the information provided is true and correct to the best of my knowledge. Notice of the public hearing set for this matter was provided by depositing the notice of public hearing letter with the United States Postal Service with postage fully prepaid on January 9, 2015. The envelopes were addressed to the property owners on the attached list and mailed in Riverside, California.

Winchester, CA 92596-9709

Dear Property Owner:

Re: Notification of Public Hearing
Floodplain Revision
for Warm Springs Wash, Winchester
APNs 466-170-034 and 466-160-007

A Public Hearing has been scheduled to consider the special flood hazard map revisions, pursuant to Riverside County Ordinance No. 458, shown below:

Warm Springs Wash flood hazard generally located west of Diamond Valley Lake. Specifically, the flood hazards shall be revised from a point north of Wickerd Road to Diamond Valley Lake and from a point east of Washington Street to a point west of the aqueduct. This correction to the floodplain boundary is based on current topographic information and conditions given to Specific Plan 310.

This revision to the 1% annual chance floodplain as shown on Riverside County Public Flood Hazard Determination Interactive Map (http://reflood.org/FloodDetermination/FloodDetermination_V09.aspx) will remove your property from the floodplain boundary. The enclosed exhibit shows the current and revised floodplain.

TIME OF HEARING: 9:30 a.m. or as soon as possible thereafter
January 27, 2015
Riverside County Administrative Center
Board Chambers, 1st Floor
4080 Lemon Street
Riverside, CA 92501

Maps and detailed analysis of the revision can be reviewed at Riverside County Flood Control and Water Conservation District, 1995 Market Street, Riverside. Interested persons may contact Deborah de Chambeau at 951.955.1265 or by email at dldechambeau@reflood.org for additional information.

NOTICE OF PUBLIC HEARING

NOTICE OF A PUBLIC HEARING is hereby given that, on January 27, 2015, at 9:30 am or as soon as possible thereafter, the Board of Supervisors for the County of Riverside will hold a public hearing on the following matter:

A REVISION OF THE FLOOD HAZARD DETERMINATION INTERACTIVE MAP PURSUANT TO RIVERSIDE COUNTY ORDINANCE NO. 458

The flood hazards to be revised are generally located west of Diamond Valley Lake. Specifically, the flood hazards shall be revised from a point north of Wickerd Road to Diamond Valley Lake and from a point east of Washington Street to a point west of the aqueduct. As a result of the revision, the 1% annual chance floodplain shall be removed within the area of revision.

The hearing will be held at Riverside County Administrative Center, Board Chambers, 1st Floor, 4080 Lemon Street, Riverside, CA 92501. All persons interested are invited to appear and be heard may do so at the time and place of the hearing noted above. For further information regarding this proposed revision, please contact Deborah de Chambeau, Senior Civil Engineer for the Riverside County Flood Control and Water Conservation District, 1995 Market Street, Riverside, CA, at 951.955.1200 or by email ddechambeau@rcflood.org.

Dated: January 15, 2015

Project Title: Revisions to the Special Flood Hazard Areas in the Public Flood Hazard Determination Interactive Map pursuant to Riverside County Ordinance No. 458

Project Location – Specific:

The proposed map revision area is generally bounded by Holland Road on the north, Diamond Valley Reservoir on the east, Keller Road on the South and Eucalyptus Road on the West in unincorporated Riverside County. See attached Exhibit A.

Project location – City: N/A

Project Location – County: Riverside

Project Description:

The County of Riverside Floodplain Administrator is proposing to revise portions of the special flood hazard areas in the Public Flood Hazard Determination Interactive Map. The proposed map revisions will include:

- Removal of the special flood hazard area located within the boundaries of Specific Plan 310; and
- Removal of the special flood hazard area located within and immediately downstream of the Diamond Valley Reservoir.

See attached Exhibit A for the location of the special flood hazard areas to be removed.

Name of Public Agency Approving Project: TLMA

Name of Person or Agency Carrying Out Project: TLMA

Exempt Status: (check one)

- ☐ Ministerial (Sec. 21080(b)(1); 15268);
- ☐ Declared Emergency (Sec. 21080(b)(3); 15269(a));
- ☐ Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
- ☒ **Categorical Exemption. Sec. 15061 – Common Sense Exemption; Sec. 15305 – Minor Alterations in Land use Limitations**
- ☐ Statutory Exemptions;

Reasons why project is exempt:

The project is exempt from the provisions of CEQA specifically by the State CEQA Guidelines as identified below. The project will not result in any specific or general exceptions to the use of the categorical exemptions as detailed under State CEQA Guidelines Section 15300.2. The project will not cause any impacts to scenic resources, historic resources, or unique sensitive environments. Further, no unusual circumstances or potential cumulative impacts would occur that may reasonably create an environmental impact. The project as proposed only includes an administrative action, which will revise the Public Flood Hazard Determination Interactive Map; no environmental impacts are anticipated to occur.

- Section 15061 (b) (3) – Common Sense Exemption. The proposed revisions to the Public Flood Hazard Determination Interactive Map is exempt from CEQA pursuant to CEQA Guidelines Section 15061(b)(3) because it can be seen with certainty that there is no possibility that the map revision will have a significant effect on the environment. There is no specific development project connected with this proposed amendment and it does not commit the County to any development. The County's approval of the map

revision does not cause any circumstances to significantly impact the environment or have negative cumulative impacts on the environment.

- Section 15305 -- Minor Alterations in Land Use Limitations. The proposed revisions to the Public Flood Hazard Determination Interactive Map is exempt from CEQA pursuant to CEQA Guidelines Section 15305 because the map revision is an administrative action that will result in a minor alteration in the County's mapped flood hazard areas but will not result in changes to land use or density. No development project is connected with the map revision. Impacts associated with Specific Plan 310, including drainage and flooding, have been evaluated and mitigated in Riverside County Final Environmental Impact Report 421. All future development within the Specific Plan 310 area will be subject to compliance with all applicable adopted Riverside County CEQA mitigation measures and conditions of approval.

Based upon the identified exemptions above, TLMA hereby concludes that no physical environmental impacts are anticipated to occur and the map revision as proposed is exempt under CEQA. No further environmental analysis is warranted.
